Summary

Product Manager with 4 years of experience driving B2B eCommerce growth at global scale. Currently leading Shop2Cash and User Management at Festo — a \$1B+ digital commerce platform operating across 40+ countries. Track record of translating customer friction into measurable revenue growth and operational efficiency, working cross-functionally with engineering and design to ship impactful product at scale.

Professional Experience

Festo — Islandia, NY

Product Manager, eCommerce Platform

Sep 2025 – Present

- Lead product strategy for Shop2Cash and User Management, partnering with a cross-functional team of 10–15 engineers and 5 designers across global markets.
- Own global roadmap, aligning Europe, North America, and APAC stakeholders to deliver secure, scalable commerce experiences.
- Define success metrics and author PRDs for initiatives spanning payments, authentication, and user lifecycle management.
- Collaborate with HQ engineering and regional PMs to scale platform architecture supporting 40+ countries and \$1B+ in annual online sales.

Associate Product Manager, eCommerce Platform

Jan 2022 – Sep 2025

Promoted to one of the first Product Manager roles based outside Festo's European headquarters, following multi-region initiatives adopted across global markets.

- Reduced material activation time from 3 weeks to 1 week by leading the Material Activation App, cutting backlog by 70%.
- Increased online sales by 7% through the Quotation Flexibility Initiative, reducing quote expirations by 30%.
- Lifted B2B reorder rates by 10% via Quantity Contract digitization, saving sales teams 15 hours per week.
- Introduced AI/OCR-powered PO Upload, projected to increase online sales by 15% and reduce order entry errors.
- Expanded product configurator access to external partner portals, increasing configurable product sales by 10%.
- Localized Distribution Portal for major North American accounts, reducing support ticket volume and centralizing account data.
- Piloted Strategic Couponing initiative targeting dormant accounts, projected to lift sales by 15% in target product lines.

eBusiness Intern

Jun 2021 – Dec 2021

- Supported the eCommerce team during a major website redesign rollout, contributing to improvements in customer support workflows and internal agent processes.
